**Pan Gulf Plastics** S.A.E.

شركة عبر الخليج للبلاستيك ش.م.م

# how it all started

Pan Gulf Plastics was established in 1979 as a subsidiary of Pan Gulf Group. Pan Gulf Plastics started its packaging business with the introduction of 50L to 200L drums that were for industrial use; which was the first of its kind in Africa. Ever since then, Pan Gulf Plastics has been proving its innovation in the field of packaging.

At the time, the focus was on industrial packaging and poultry products.

Pan Gulf Plastics has a customer base that relies on the innovative packaging solutions for different industries including food and non-food products.

# why pan gulf plastics

To take packaging solutions to new levels, Pan Gulf Plastics has been expanding dramatically and is now operating in two locations in 6th of October City; a 10,000m<sup>2</sup> facility & 7,000m<sup>2</sup> facility. This has helped Pan Gulf Plastics use each facility to be specialized in the divisions it serves: the industrial and the consumer packaging.

Pan Gulf Plastics has redefined the meaning of packaging with the introduction of the new facilities that host over 30 injection machines ranging from 50 tons up to 800 tons and 17 blow molding machines ranging from 50ml up to 250 liters.

These technologies have helped Pan Gulf Plastics increase efficiency and effectiveness and keep it one of the market leaders.

Pan Gulf Plastics is currently certified for ISO 9001, and in process for the ISO 22000; which ensures that the quality of the packaging is up to the customers' demands.

Pan Gulf Plastics is one of the leading companies in providing In Mold Labeling (IML) Solutions that are built to meet most demanding customers designs and aspirations.

Pan Gulf Plastics offers plastic packaging solutions to a large set of customers and partners, including the largest multinationals in those fields as well as the leading local Egyptian companies.

# areas of expertise

We operate in two main fields where we believe we set the market benchmarks.

- **Industrial Packaging**

- Paints
- Oils
- Chemicals
- Agriculture

- **Consumer Packaging**

- Cosmetics
- Food
- Detergents
- Pharmaceuticals
- Caps and Closures

# blow molding

This method of manufacturing is the primary solution that is used to produce the majority of the current cosmetics, pharmaceuticals, lubricants, and detergents in the world and we at Pan Gulf Plastics are one of the leaders in Egypt in this field.

We currently provide over 60 million bottles to the leading FMCGs, and Oil and Gas companies in the country with a product range from 95ml up to 25 liters, with a variety of different colors and sizes.

This division of our business has been the fastest growing segment in the past 5 years, and we are directing a lot of investments behind it.

# best quality for our customers

In order to keep on delivering the optimum quality, we strive to make sure that our factories operate in the best possible way where efficiency and effectiveness are ensured.

Our new 7,000m<sup>2</sup> facility is built with the highest hygiene and control standards, as this facility will specifically handle food packaging and cosmetics.

We have taken automation, hygiene, quality, and operational excellence as our main pillars in the new facility.

Our exceptionally broad product range helps us serve different targets that ask for different purposes.

We cater for food as well as non-food items including chemicals, paint, oil, and more.

All containers are characterized with the highest quality and reliability. They are easy and safe to use and also to clean.

We believe that maintaining a relationship with customers based on trust and honesty is the key success factor. Therefore, we believe that it is our responsibility to offer them the best quality characterized by innovation, hygiene, and reliability.

# the cherry on top: our services

Pan Gulf Plastics did not stop there. We believe that in order to keep pleasing our customers, we could also offer them with services to complement the products. These services include branding and special sealing, such as In Mold Labeling, Bottle Sleeving, Offset Printing, and Silk Screen.
